Resolution on Soroptimist-Danube-Network

We, European Soroptimists in countries along the Danube, are in a special way connected - by the river and by international Soroptimistic aims and values. As Soroptimists we share the same principles of « Awareness, Advocacy and Action ». It is our concern to promote European awareness through our actions and thus act as advocates for a peaceful and solidary Europe.

With worries, we have noticed that Europe is endangered by nationalism and populism. We oppose this development. We declare our readiness to take position and act against these tendencies in our countries on both sides of the river Danube. We stand up for democracy, freedom, equal rights of all sexes and legal security in our countries.

As Soroptimists, our mission is to educate, empower and enable women and girls with the intention to improve their lives. Our vision is to help building strong and peaceful communities in our Danube countries and worldwide.

To reach this aim, we will create and support cultural, social and environmental program activities for our countries and clubs together. To strengthen our cross-border friendship and communication as well as to make this common program-work effective, we today found the « Soroptimist- Danube- Network ». We look forward to joining with as many Danube SI-Clubs as possible. We plan to meet on a regular basis.
